

Battleships

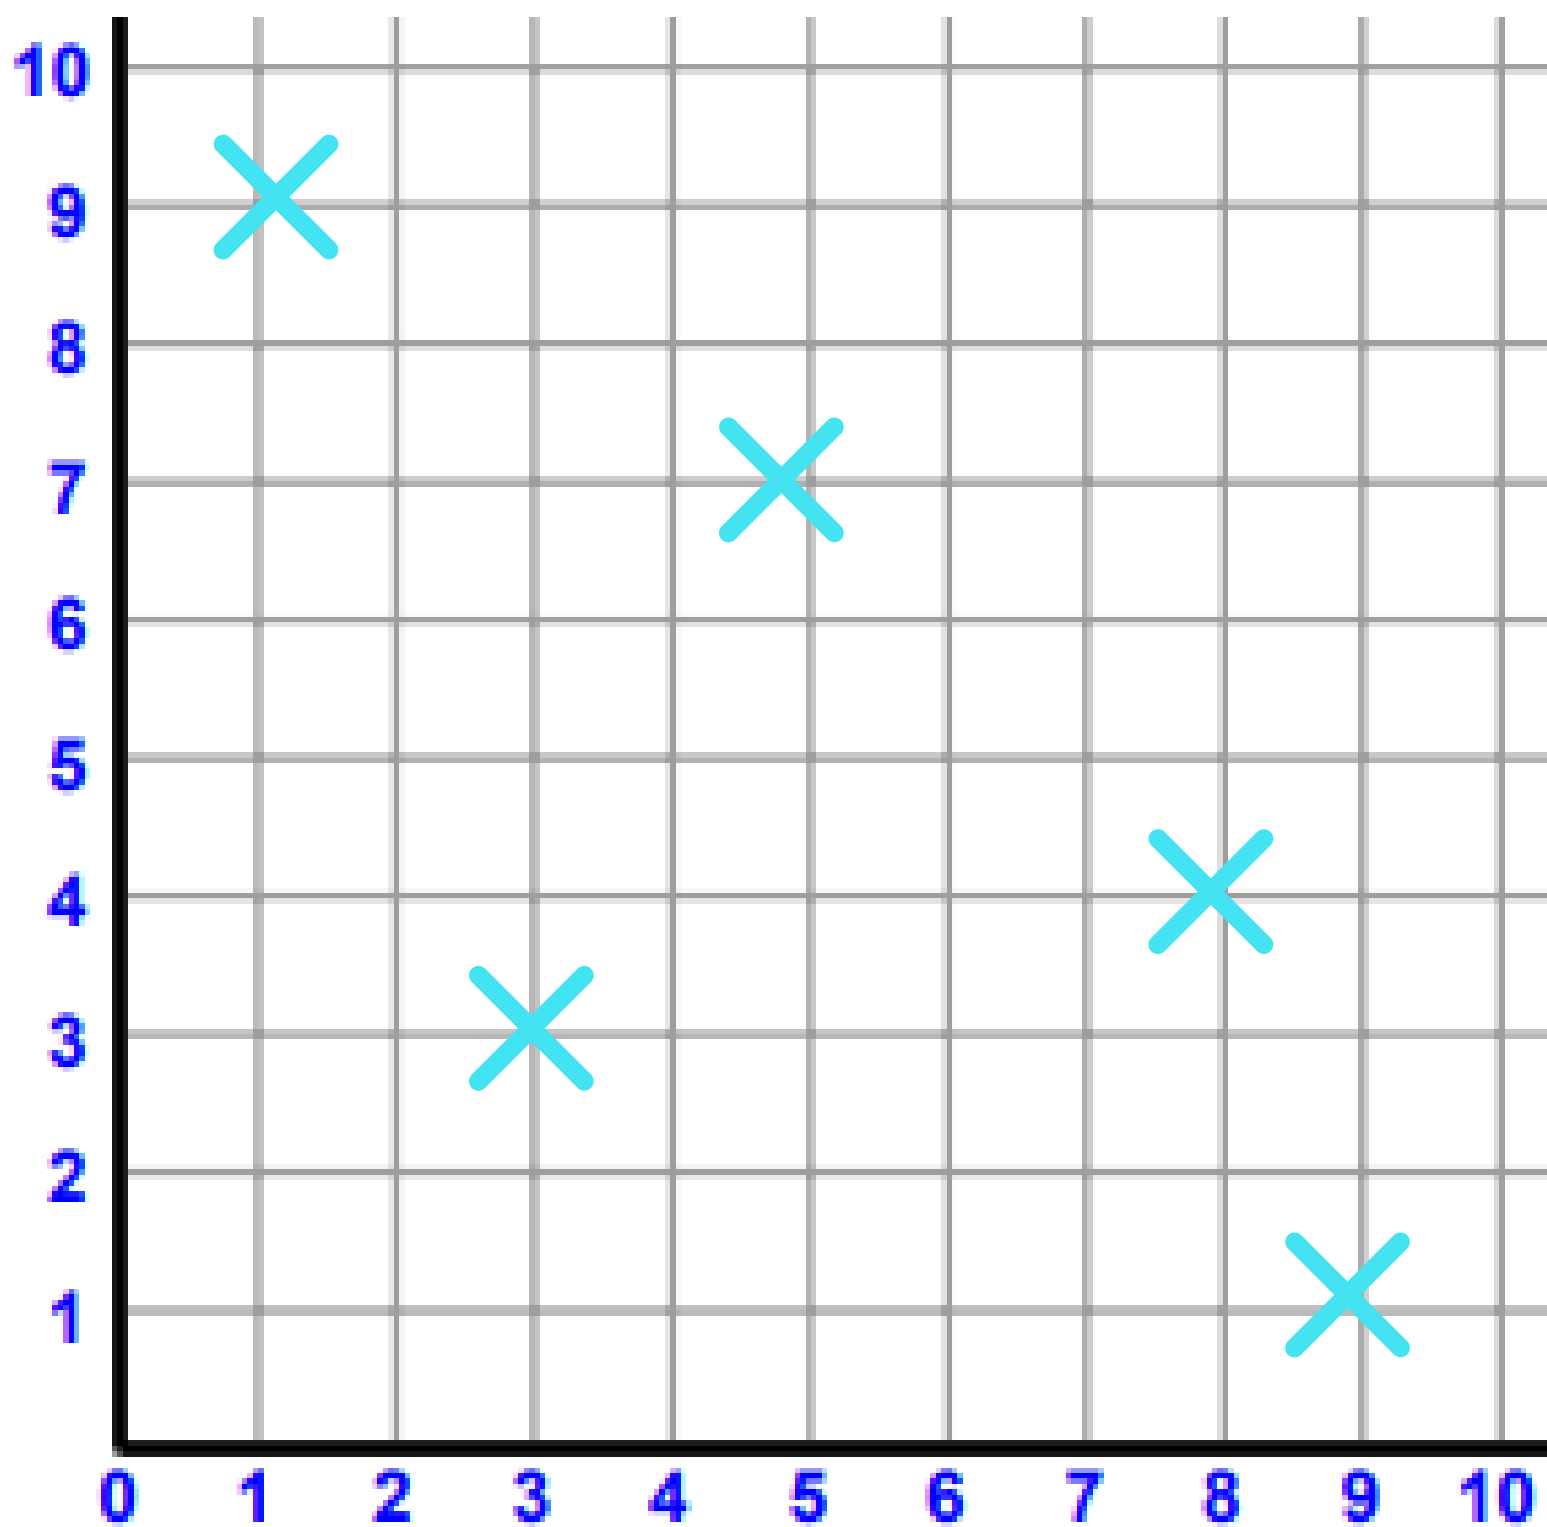

My guesses

INSTRUCTIONS

For 2+ players.

Each player must place 5 crosses on their grid. and keep it secret from the other players.

The aim is to find your opponents crosses.

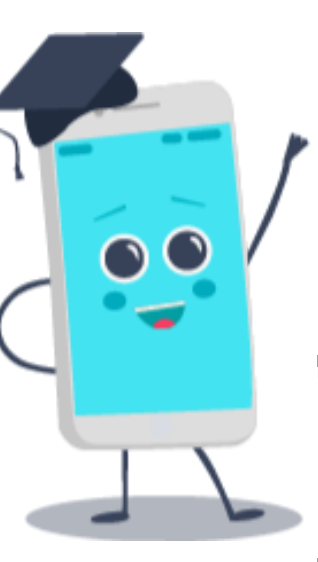

You must guess where they are by saying the coordinates . For example (5,6)

If there is a cross in that space on your opponents grid, they shout "hit" if there isn't they say "miss".

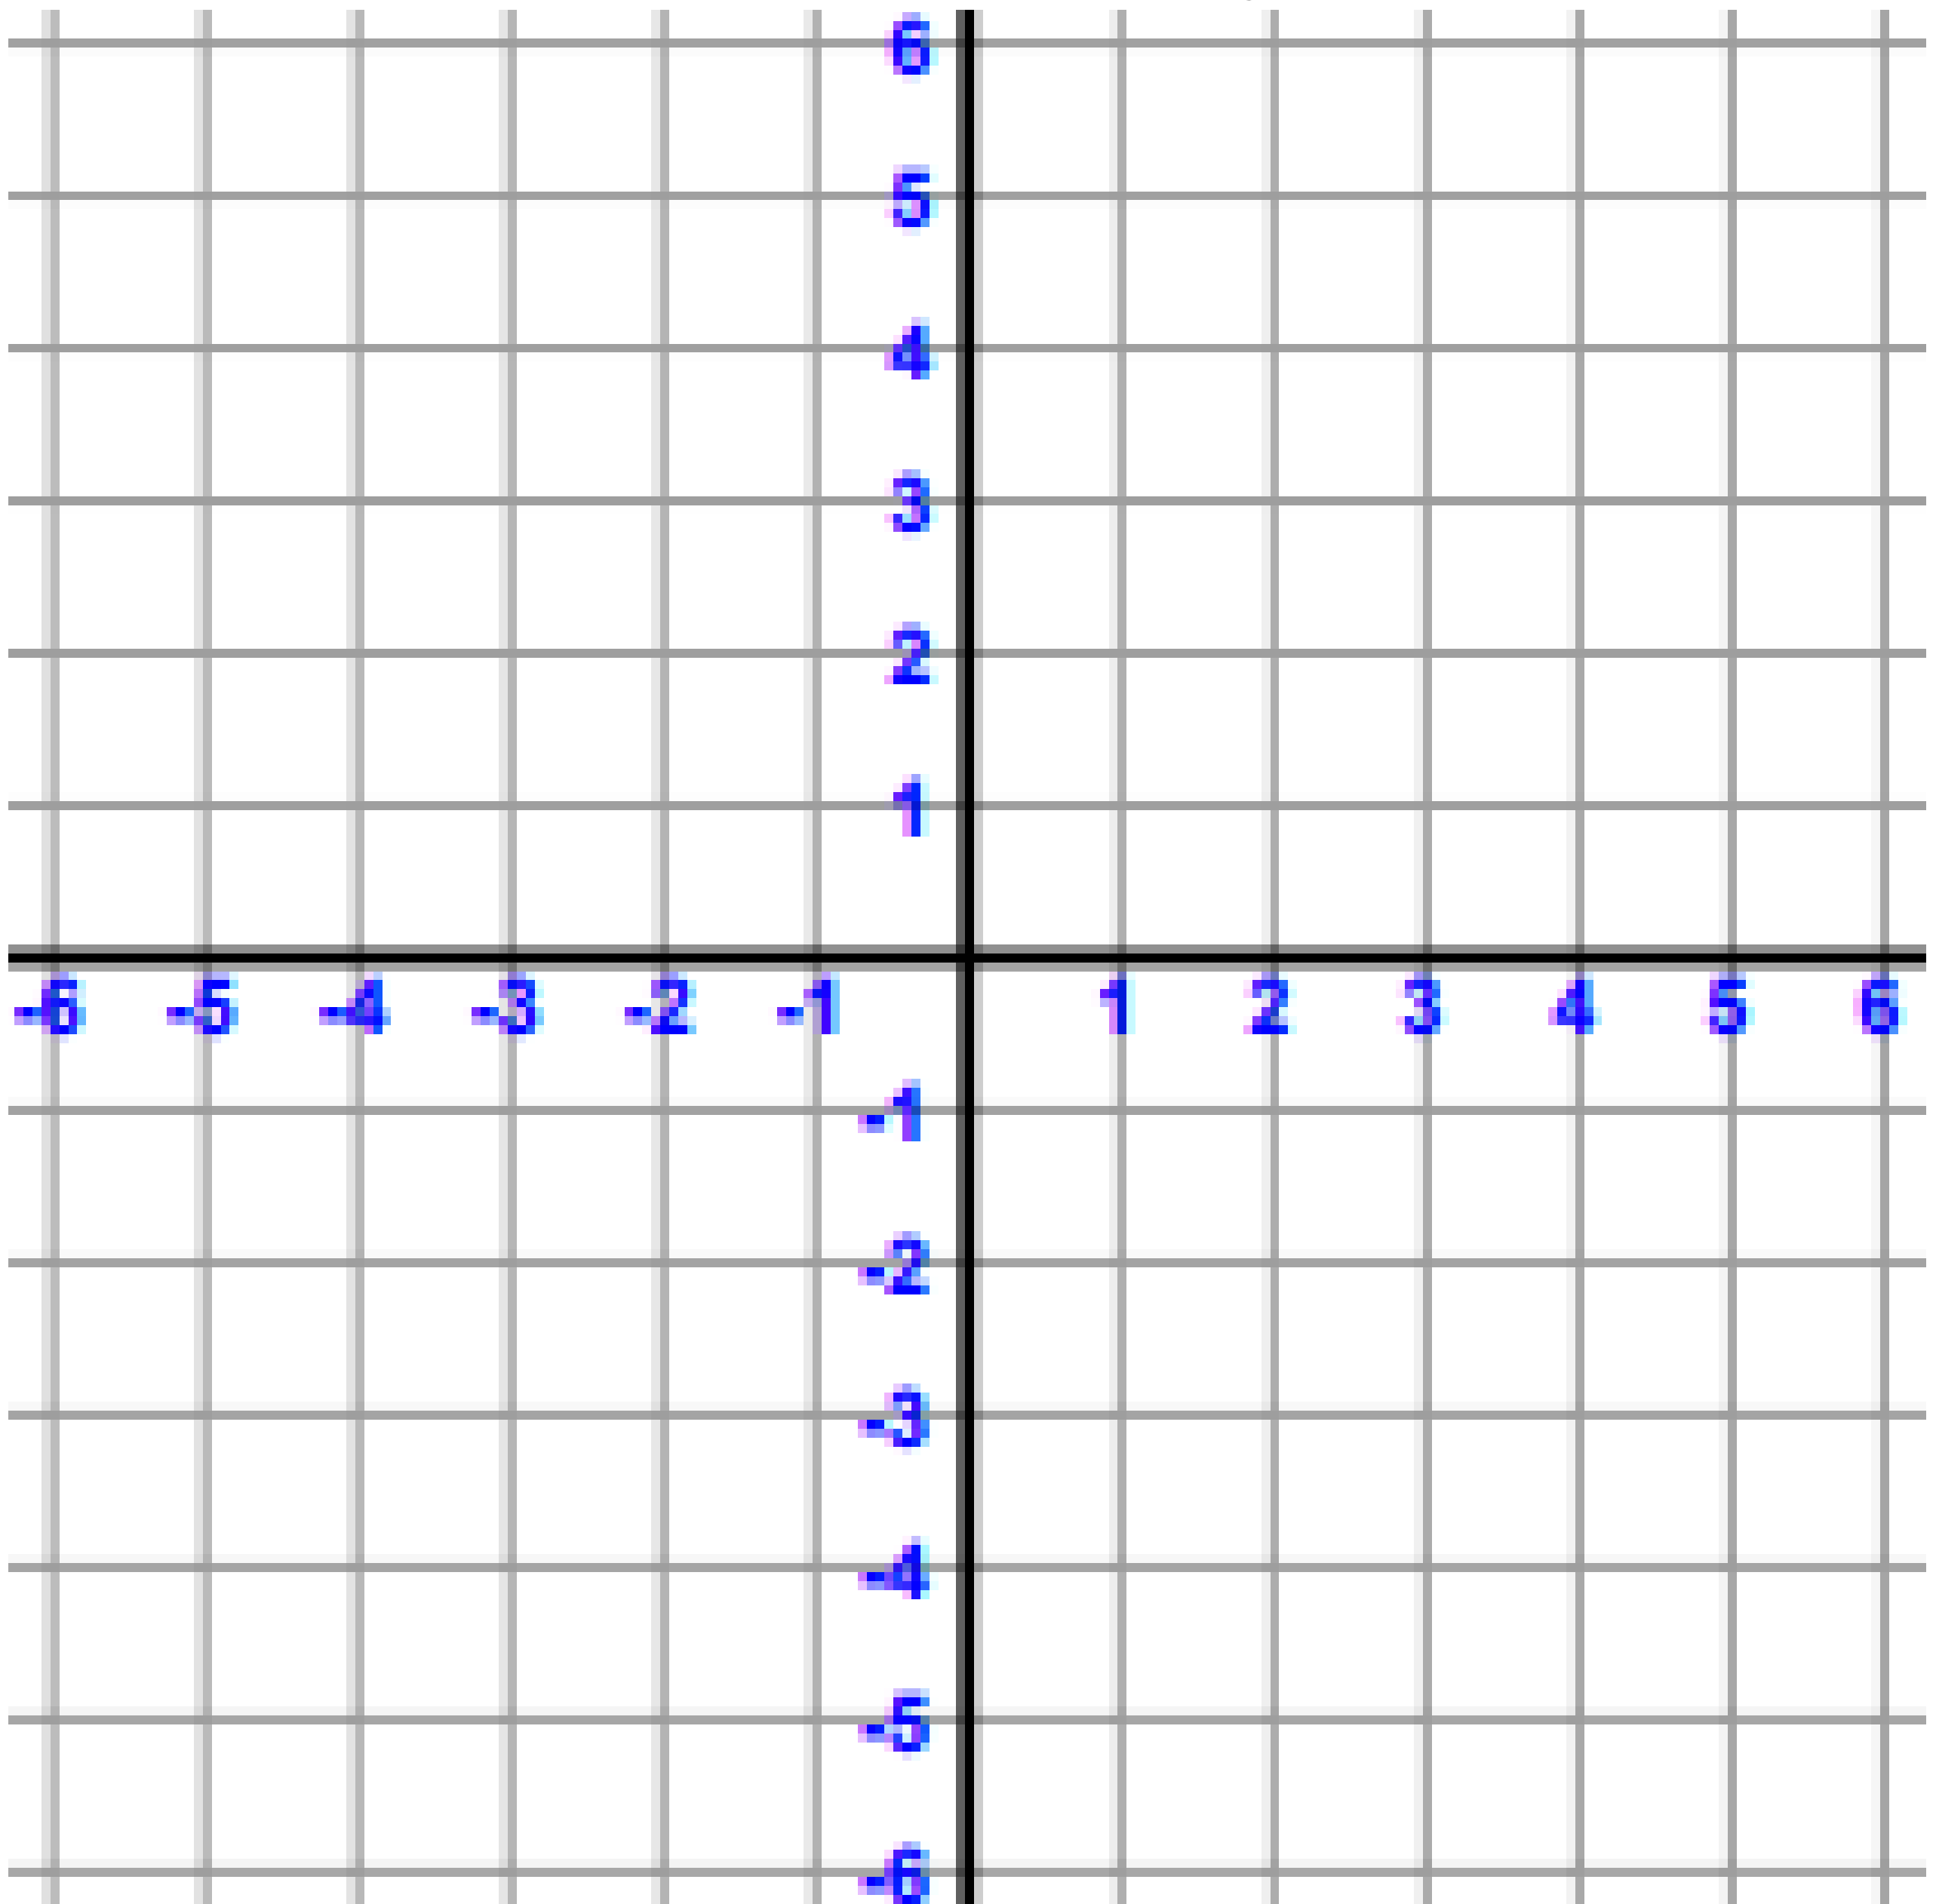

Each player takes it in turns to guess.

You can record your guesses on your page so you don't repeat the same guess!

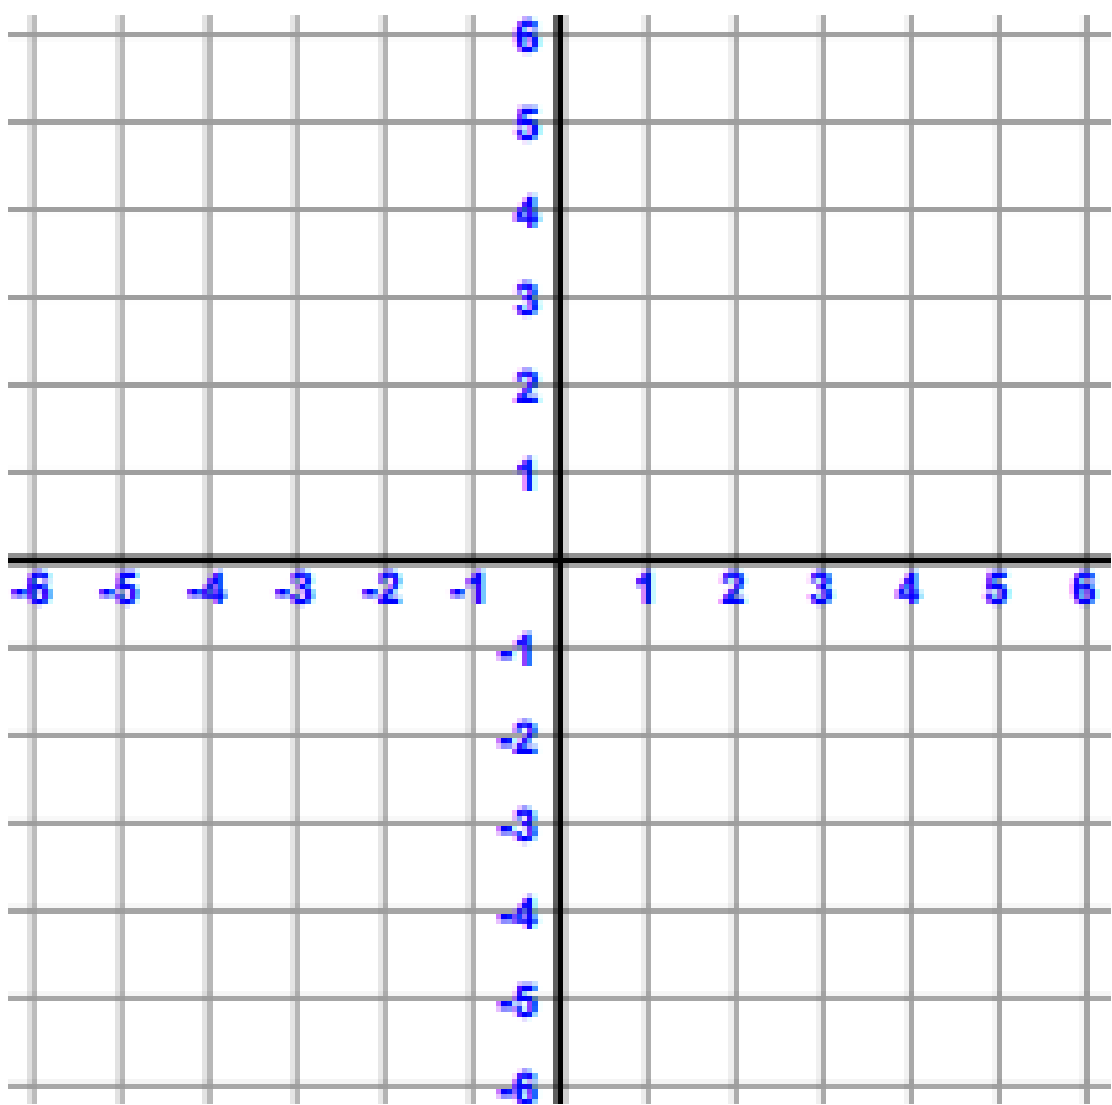

The game is over when a player guesses where all 5 of their opponent's crosses are!

Battleships
