# Written subtraction

Choose a written method to calculate the following: Step 1

$$438 - 215 =$$

$$396 - 274 =$$

$$564 - 233 =$$

$$2432 - 1320 =$$

$$3864 - 2135 =$$

$$4649 - 2335 =$$

Choose a written method to calculate the following: Step 2

$$518 - 325 =$$

$$452 - 273 =$$

$$542 - 229 =$$

$$3380 - 3254 =$$

$$3961 - 2732 =$$

$$5424 - 2293 =$$

Choose a written method to calculate the following: Step 3

$$612 - 325 =$$

$$424 - 276 =$$

$$815 - 699 =$$

$$5183 - 3258 =$$

$$4574 - 2736 =$$

$$5432 - 3269 =$$

Solve the word problem:

Ryan is saving his pocket money to buy a trampoline. The trampoline costs £358. He has saved £186.

*How much more does he need to save?*

Lucinda earned 3230 points on TTRockstars. She bought a new instrument which cost her 1099 points.

*How many points does she have left?*
