Illustrate and name parts of circles, including radius, diameter and circumference and know that the diameter is twice the radius

Solve the word problems

1) A team of ducks swims to the edge of a circular pond from the centre. It is 4m from one edge to the other. How far did the ducks swim?

2) A flag is put in to the centre of a circular circus tent. The flag is 2.75m from the edge. How big is the tent's diameter?

3) The distance around the outer edge of the roundabout is 35m.
What is this a measurement of? Tick one

- The radius of the roundabout
- The diameter of the roundabout
- The circumference of the roundabout
